### SAYS INVESTIGATION WOULD DISCLOSE MOST MORTIFYING SCANDAL

**Believes Urgent Need of Looking  
into Affairs of Department of Jus-  
tice and Custodian of Alien  
Property--Says Patronage Used  
to Build Political Machine.**

(By The Associated Press)

NEW YORK, Jan. 18.—An immediate congressional investigation of the department of justice and the office of the alien property custodian was recommended by Samuel Untermyer, in an address tonight at a testimonial dinner to Nathan Hirsch, prominently identified with the campaign against rent profiteering here. Mr. Untermyer, who is chief counsel in the joint legislative committee's investigation of the alleged building trust has obtained numerous indictments declared he had no direct legal evidence against the two departments.

"But," he added, "if a fraction of what comes to me is true (and I believe much of it to be true), such an investigation will disclose to the world a series of the most mortifying scandals that has ever befallen our country."

"There has never been a governmental department, national or state," Mr. Untermyer said, "so urgently in need of immediate and painstaking investigation as are those of the alien property custodian and the department of justice. But the investigations must be conducted, if at all, under skillful, searching and strictly non-partisan direction with the aid of experienced counsel and only after careful preparation, such as that which precedes the trial of a case."

**National Honor Involved.**  
Our national honor is involved here. The vast powers and patronage of those great offices are said to have been used and it is the general belief that they were incidentally used to build up a political machine, which, however, fortunately failed of its purpose. But the uses to which they and their vast patronage were put was none the less sinister, because they did not succeed.

"There is just one decent loophole of escape for us," he added, "and that is by a merciless exposure of the facts by Congress."

**Relief on British Reports.**  
Investigation of the activities of the secret service of the department of justice before and during the war, Mr. Untermyer said he believed, would develop the fact that it did little except to rely largely on the reports of the British secret service that were gathered before we entered the war and to induce us to intern the unfortunate who had incurred its enmity before we entered the war.

Asserting there is nothing new in this alarmist opposition of the financial interests to the enlarged powers asked for the Lockwood committee, Mr. Untermyer added: "The same underground opposition that will be smoked out, before we get thru, if the opposition persists, is found whenever there is an effort to restrict the license of these powerful self-constituted guardians of other people's money."

### Senate May Ratify Wilson Appointments

WASHINGTON, Jan. 18.—Inaction by the Senate on the thousands of nominations submitted at this session by President Wilson was broken today and the way paved for confirmation before March 4 of emergency appointments.

Attempts of Democratic senators to force an executive session, none of which has been held since Congress assembled last month, resulted in an agreement between party leaders to refer to appropriate committees with instructions to report the nominations of 5,521 army officers recommended for permanent commissions by the Pershing board and now holding temporary appointments. After Senator Lodge the republican leader, had given notice that his party would not tolerate any tendency on the part of the present administration to place its follow-

### GERMAN PEOPLE POORLY ADAPTED FOR DEMOCRACY

**This is Belief of the German  
Nationalist  
Press**

**MANY PROBLEMS  
TO BE SETTLED**

(By The Associated Press)  
BERLIN, Jan. 18.—The fiftieth anniversary of the founding of the German empire afforded the nationalist press opportunity for indulging in partisan contemplation of the nation's present political and economic plight and the ultimate working out of democracy as insuring the future unity of the German people.

The Pan-German Deutsche Zeitung concedes to the German people possession of constitutional constructive faculties, but asserts these may only be converted into a national asset when led by a firm hand in a positive direction.

"No people on earth are so poorly adapted to endure unbridled democracy as we," the newspaper asserts.

The Deutsche Zeitung declares the so-called individual right of self-determination has accomplished the propagation of petty traits in the German character, provincial jealousies and partisan rancor. It believes the future salvation of the German people can only be found in its will to be led and in exhorting faith in its leaders.

Die Post speaks of "the day of pride and sorrow."

### HELD REUNION IN LOS ANGELES

**More Than One Hundred Former  
Jacksonville Residents Met at  
Banquet.**

Mention was made recently that former residents of Jacksonville would hold a reunion in Los Angeles, Monday, Jan. 17. Dr. Arthur W. Rider, a prominent Baptist minister, was the chairman of the committee on arrangements. Mrs. Rider is known to a great many Jacksonville people as the former wife of the late Rev. H. M. Hamill. Last night the Journal was in receipt of the following telegram from Dr. Rider.

Los Angeles, Calif., Jan. 18, The Daily Journal, Jacksonville, Ill.

One hundred and fifteen former residents of Jacksonville gathered at a banquet here last night. Songs, poems and addresses to old times furnished a delightful evening. The company heartily voted for permanent organization with annual reunion. We appreciated Journal's greeting and return ours to Journal and its readers.

Arthur W. Rider, Chairman.

### MR. GOEHEN HAS BIRTHDAY

While seated at the breakfast table at his home Tuesday morning L. Goehen heard a knock at the door and was greatly surprised to find the visitor to be his sister, Miss Anna Goehen of Forest City, Mo. The brother and sister had not met for a number of years and it was a very happy reunion. It did not at first occur to Mr. Goehen that his sister had come to help him celebrate the occasion of his seventy-eighth birthday.

### TALK OVER BANK BUILDING PLANS

R. J. Outbridge, representing Hodgkenson Bros., architects, of New York and Chicago, was a business visitor in Jacksonville yesterday. This firm makes a specialty of bank buildings. While here Mr. Outbridge had a conference with E. E. Crabtree, president, and F. E. Farrell, vice president, of the Federal State Bank relative to the new home of the bank which it is expected to erect in 1922.

### DURBIN M. E. CHURCH

The Epworth League of Durbin church will present a program and have a social hour at the church tonight beginning at 7:30 o'clock.

Wilson Smith of Waverly was a business visitor in Jacksonville yesterday.

### Teams Bunched In Bike Race

(By The Associated Press)  
CHICAGO, Jan. 18.—The forty-fourth hour of the six day bicycle race found nine of the twelve teams which started the grind bunched with a record of 750 miles each, one team permanently out of the running and two trailing a lap behind the leaders. The team of Madden and Magin was in the lead in points, however, with 22, good work in today's sprints bringing them to the front.

Charley Piercy was forced out of the race thru injuries received in a fall Sunday and his partner, Arthur Spencer, after failing to get a new rider to help him out, withdrew today.

The teams of Stein and O'Shea and Ryan and Drobach each lost a lap today.

### DISTRIBUTION OF SUGAR DURING WAR IS CRITICIZED

**Cane Sugar Growers  
Want Protective  
Duty**

**WARNING OF GERMAN  
COMPETITION**

(By The Associated Press)  
WASHINGTON, Jan. 18.—Criticism of the government's method of sugar distribution during the war together with a practically unanimous appeal of cane sugar growers for a protective duty marked consideration by the house ways and means committee today of revision of the Underwood tariff act as it applies to sugars, molasses and syrups.

Practically the entire day was given over to testimony of conditions in the cane belts of the south and representatives of several departments, among them former Representative John J. Fitzgerald of New York, were included in the witness and they stirred up the dustiness strife between producers and refiners. Mr. Fitzgerald declared that the government's policy during the sugar shortage last year had been such as to penalize the whole nation in order to favor Louisiana producers.

"If the government had bought the Louisiana crop," he said, "it could have given it away, saved those people whom it used as an excuse for the price fixed and saved the rest of the country millions of dollars."

**Wanted People to Pay.**  
R. E. Milling of New Orleans, representing the grower, retorted that the refiners had sought to get a grip on the sugar industries and make the people pay for it.

Representatives of the beet sugar interests are scheduled to be heard tomorrow.

Their appearance with a few more refiners it is planned, will conclude hearings on Schedule E. Few of the witnesses representing either the producers or the manufacturers of raw cane sugar attempted to suggest a specific rate of duty. All were content with asking the committee merely to give them ample protection.

The committee also heard Frederick J. Bates, chief of the sugar division of the federal bureau of standards who urged a redrafting of the sugar schedule so that "archaic and old-fashioned methods" of assessing the duty would be eliminated.

The witness also suggested a prohibitory tariff on rare sugars which are used almost entirely in medical work. He termed, "infants" the industries manufacturing these products and warned the committee that unless they were protected a revival of the German production would stifle these plants.

### SET TRIAL OF CLARA SMITH HAMON

Ardmore, Okla., Jan. 18.—Judge Thomas W. Champion announced today the trial dockets of the district court of Carter County would open Feb. 28 and that the case of Mrs. Clara Smith Hamon, charged with the shooting of Jake L. Hamon is set for the tenth day of March.

### PLAN TO REGULATE COAL INDUSTRY IS PROVIDED IN BILL

**Calder Measure En-  
dorsed by Govern-  
mental Heads**

**COUNTRY HAS  
MANY YEARS SUPPLY**

(By The Associated Press)  
WASHINGTON, Jan. 18.—Regulation of the coal industry as provided in the pending Calder bill was endorsed today by heads of two of the three governments agencies which would be charged with administration of the measure. Edgar E. Clark, chairman of the interstate commerce commission, and Dr. George O. Smith, director of the geological survey, both of which agencies together with the federal trade commission would be called upon to enforce the regulatory provisions, told the senate manufacturers committee that the bill as drafted would be workable. The chairman of the federal trade commission, Huston Thompson, will be heard tomorrow by the committee which then plans to hear the views of J. D. A. Morgan, vice president of the National Coal association and other representatives of the industry.

**Outlines Methods.**  
Asserting that the bill should be enacted, Director Smith outlined for the committee the two general methods proposed in the bill for dealing with the coal industry.

The first method to be applied during normal times when coal is available at proper prices," said Dr. Smith, "merely involves the collection of statistics of production distribution and costs which are to be made available to the public. No producers of a commodity like coal can reasonably object to this."

"The second method to be applied only in emergency," he when found necessary by the federal trade commission with the approval of the president allows prices fixing, dealing in coal by the federal government, and authorizes control of the production, transportation and sale of coal. "I think we have found there can be no necessity of prices as well as the collection of statistics," he said. "The geological survey had told the committee that the United States possesses have the coal resources of the world and possibly enough to insure a supply for thousands of years."

"Isn't it true that there is a limited amount of Anthracite?" inquired Senator Kenyon, "and isn't almost all this produced by seven railroad companies?"

To this, Director Smith agreed, altho he remarked that "organization in the Anthracite industry has been in operation for more than a century and the disorganization in the bituminous."

### WESLEYAN DEFEATS ILLINOIS NORMAL

BLOOMINGTON, Ill., Jan. 18.—In one of the greatest games ever staged in this city, the Illinois Wesleyan university basketball team defeated the Illinois Normal University tonight on the Normal court this afternoon by the score of 25 to 24. The game was a thriller, advantage then disorganizing the Wesleyan team. The score being tied a number of times during the forty minutes play.

At half time both teams were deadlocked with fifteen points a piece. Wesleyan won out in the last minute and a half of play.

### MILLIKIN CAPTAIN FRACTURES RIGHT ARM

DECATUR, Ill., Jan. 18.—Wayne Gill, captain and center of the Millikin university basketball team, sustained a compound fracture of the right forearm in a game here tonight between Millikin and Beloit college.

Millikin won the contest 24 to 21.

### Chairmanships Are Announced

(By The Associated Press)  
SPRINGFIELD, Ill., Jan. 18.—A committee chairmanship was given to every one of the 42 Republican state senators in a meeting of the senate committee on committees today following the recess adjournment of the 52nd general assembly until February 1.

The house committee on rules, after tossing the old "wet" and "dry" committees and the stenographic reports committee into the discard, created a uniform law committee which will consist of 17 members, and three committees on appropriation to have memberships as follows:

Judicial, 17; senatorial, 35; congressional, 25.  
Senator John W. Wheeler, representing the 4th senatorial district which is composed of Sangamon and Morgan counties is chairman of the Public Health committee.

### HOUSE SPENT DAY IN ARGUMENT ON MEMBERSHIP BILL

**Proposal to Increase  
Membership is  
Opposed**

**EFFICIENCY WANTED  
SAYS ESCH**

(By The Associated Press)  
WASHINGTON, Jan. 18.—After five hours of argument and oratory, the house, like a jury not required to be locked up, went home tonight to deliberate over the proposal to increase its membership from 435 to 485.

Such a storm of protest was raised however, to the bill that house leaders predicted the verdict tomorrow would be against the increase and for an amendment holding seats to the present total. The debate touched on every possible point, altho Representative Clark, former Democratic leader declared it was not different from that heard after every decennial census for the last half century.

Rising to speak in opposition to the bill, Representative Esch, Republican, Wisconsin, who failed of re-election last year after a continuous service of 22 years, was greeted by a demonstration by Republicans and Democrats alike. Mr. Esch declared the house could not justify its action in adding to the membership simply to save one seat in Maine and another in Missouri.

**Says People Want Efficiency.**  
"Why can't this house have the courage to say it will not do that?" he asked. "The people of your state are not so much concerned with the number of representatives as they are with the question of ability of efficiency. It is not difficult to remember the time when Maine, with four members, had more influence here than New York with its thirty."

Nearly everybody had a chance to express his views. Representative Montague, Democrat, Virginia, broke into the discussion in its early stage to declare that it was shockingly obvious to the house, as it was to the country, that the house was too big now to legislate effectively.

Some members even from states which stand to lose representation opposed the bill and insisted on the amendment which would keep the total as it stands today. There was however, a plea from Representative Aswell, Democrat, whose state would lose one member, that reduction "should not be cut down at the time women were starting to vote, and a warning by Representative Sims, Democrat, that it was easier for big interests to control a small than a big body.

**Bosses in Big Cities.**  
Taking up the latter statement Mr. Slason said all the world knew how big cities were bossed and that the charge never had been made that there was such a being as the boss of a village.

Under the Barbour amendment the house would be reapportioned by shifting twelve seats from eleven states to eight. States gaining would be California, Michigan, Ohio, Connecticut, New Jersey, North Carolina, Texas and Washington. Listed the losing column were: Missouri, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Mississippi, Nebraska, Rhode Island and Vermont. After the house had adjourned a movement was started by members from some of the states would lose under the amendment to present a motion tomorrow to strike out the enacting clause of the pending bill.

### LIEUTENANT KLOOR MAKES NO MENTION OF FISTIC ENCOUNTER

**Cominader of Runaway Balloon Gives High  
Praise to His Two Companions on Trip—  
Says Each Made Many Sacrifices—Didn't  
Believe There Was Any Particular Hero**

(By The Associated Press)

ROCKAWAY, N. Y., Jan. 18.—Carefully avoiding any mention of the fist fight between Lieutenants Hinton and Farrell, which brought to a surprising denouement their recent balloon flight into the Canadian wilderness, Lieutenant Louis A. Kloor, Jr., who commanded the party, described their experiences in detail today before the court of inquiry investigating the affair.

"Newspaper accounts have reflected on the actions of your two companions," the court told Lieutenant Kloor. "Now state what you know of the personal conduct of the party from the time of leaving the air station until your return."

Picking his words with care Lieutenant Kloor paid high praise to the personal conduct of his companions until they reached Mattice where the altercation occurred.

"That's all I have to say," he declared, but the court reminded him his story had not yet brought the airmen back to Rockaway.

Then he mentioned that Lieutenant Hinton had left the private car in which the two of them were seated shortly after arriving at Mattice, to deliver to Lieutenant Farrell Secretary Daniels order against granting interviews.

"Hinton said he would tell Farrell and in doing so he had to go to the Hudson's Bay Company store, after which he returned to the room where we were occupying in the private car," Lieutenant Kloor said.

**Does Not Mention Fight.**  
It was while Hinton was gone on this mission that the fight occurred, but the witness made no mention of it.

"The conduct of Lieutenants Hinton and Farrell on our return from Mattice to this station," he continued, "was in no way questionable."

Concluding his testimony, Lieutenant Kloor turned to the press table and smiled at a dozen newspapermen who were amusing themselves by discussing his apparent evasion of the question on the aeronauts conduct. He was then excused by the court.

During the weeks they spent in ice berthed forest, Moose Factory and intruding thru the snow back to civilization, Lieutenant Kloor said each of the men made sacrifice after sacrifice.

**No Outstanding Hero.**  
He didn't think there was anyone "particular hero."

The party left Rockaway with food to provide three meals for the three men, he said. They carried no balloon log and the only maps were charts of the states of New York, New Jersey, Connecticut and Pennsylvania.

After explaining that it would have been as easy as falling off a log for the party to have landed at Wells, N. Y., on the evening they left here, Lieutenant Kloor said they failed to locate Wells on a chart before going onward. When they asked inhabitants 100 feet below them how far it was to Albany, he added, the only replies were:

"How should we know?"  
"You've put Wells on the map now, so you'll know where it is the next time," remarked Rear-

### Shipping Board Losses Run Into Millions

NEW YORK, Jan. 18.—Losses running into millions of dollars would be shown by the shipping board in the operation of its vessels if fixed charges were taken into account, Colonel E. Habit today informed the Walsh committee in its investigation of the board's affairs. The witness is a former general comptroller of the shipping board.

Failure to include these fixed charges, such as insurance, depreciation, interest, he said, made the financial statement show a profit, when according to industrial practices a net loss would be shown.

The witness took with him to the committee room a trunk full of exhibits. From these exhibits and a prepared statement he read his testimony which promises to take up the greater part of tomorrow's session.

A recapitulation of estimated vessel earnings and expenses for the fiscal year which began subsequent to March 1, 1920, and terminated prior to September 23, 1920, testified. "Gives as a net revenue of \$20,935,070.46, which revenue would be practically the profit of operation from the government standpoint."

The fixed charges against the net revenue covering both operating and lay up periods of sailing vessels between the dates aforementioned, was \$49,918,194.31. "Net loss was sustained of \$18,983,122.85."

These fixed charges, he said, are not audited only estimated, and are of exceeding value as a guide to future trading ventures.

The story is that one man laughed so violently when he compared present day prices with those of 1821 that an attack of heart disease came on followed by his death. Most comparisons of this kind have resulted in tears instead of laughter.

They say there is nothing in a name, yet it was Cleopatra Hurtzman who confessed to police a day or two ago that with smiles and tears she has carried on a very successful term of banditry in Chicago streets. This modern Cleopatra by feigning distress was able to lure men to her assistance and then the matter of robbery was easy.

A strange thing about some politicians is that they are unwilling to let bygones be bygones. Perhaps strangeness is not the right word and "weakness" would better fit the case. When political co-partners gain places of power the reasonable thing is to look to the future and not to the past. And it is a great question whether good politics requires the killing off of an antagonist who is down.

The proposal to increase the representation in congress from

435 to 483 is receiving strenuous opposition. There are good grounds for this opposition since any really good reason for increase in the number of congressmen has yet to be advanced. The larger number would mean an increase in government expenses, to say nothing of the other disadvantages, and would not mean that the people are any more perfectly represented than they are today.

The present house is bulky and cumbersome when it comes to the transaction of some business, and the larger number of members would serve only to make conditions more unsatisfactory.

One man greatly interested in educational projects declares that the uncontrolled boys of the large cities are causing crime in the downstate counties, and that the erring girls from these downstate districts are at the bottom of much of the crime in the cities. The lack of proper educational facilities is given as the basic reason for these unfortunate conditions, and the conditions are being used as an argument why there should be a substantial increase in the state distributive educational fund. If it can be proven that an increase in this fund will check wrong doing and turn young life into the proper channels, let's have the increase.

## THE END DESIRED

It is announced that the United Farmers of the province of Ontario, Canada, view with anxiety the proposals of Republicans in the United States to enact a protective tariff law imposing high duties on grain and live stock. The tariff would inevitably lead to lower prices for Canadian livestock, the spokesman of the Ontario farmers is quoted as saying. That statement has an important bearing on the question "who pays the duty." If a duty on Canadian

livestock means that the Canadian farmer would have to take less for his stock, then of course the burden falls on the foreign producer. The foreign producer is the beneficiary of the free trade policy. That the American import duty would militate against Canada as a whole, is another assertion of the Canadian farmers. If so, then it will militate in favor of the United States as a whole, which is the end just now most desired.

Rippling Rhymes  
By Walt Mason

**The Tramps.**  
I spend my quiet days and hours where winter does not win, where in December gorgeous flowers the country side are tinting. Here comes the lads who have the price, to dodge the beastly weather of countries stocked with sleet and ice, and snowdrifts stuck together. Here also come the unwashed tramps; all day I see them drilling; and lots of them are wicked scamps who'd knife you for a shilling. They're passed along from town to town by wise and thoughtful coppers who do not wish to hurry down so many thieves and paupers. They're driven forth from Punktown's gates by stern official orders; that village wants no frowzy skates within its moral borders. They're chivied out of Mudville streets, the rural cops prevailing; the hamlet wants no bums and beats its atmosphere inhaling. This is the system that's in force wherever tramps may wander; and selfish such work and course—to shoot them there and yonder. And so the hoboes ply their boots, down all the roads they trickle; and some of them are caloused brutes who'd shoot you for a nickel. A trial of crime they're laying down, a record that's a beauty; and when we've shooted them from our town we think we've done our duty.

## OLD JACKSONVILLE

MORGAN'S MOTHER'S BIRTHDAY

By Easley Moore

(Member Illinois State Historical Society)

The Carrollton Patriot of Nov. 4th, 1920, had an article regarding the approaching Centennial of Greene county and of Carrollton, of which former, January 20th, 1921, is the date. Greene county was the mother of Morgan, as it included all of Morgan as originally established by the legislature, Morgan's birth being in 1824.

That eminent historian, Judge John Moses, whose history of Illinois was published in 1892, traces the history of Morgan as follows:

"The name of Illinois, the first county established in the State by Virginia in 1778, was changed under the organization of the Northwest Territory, to that of St. Clair, in March, 1790. Randolph was established in 1795. These two counties were re-established and continued with the same names and boundaries by the Illinois territorial government in 1809. Their population in 1800 was reported as follows: Randolph, 1,103; St. Clair, 1,255; and in 1810: Randolph, 7,275; St. Clair, 5,007."

Madison county was taken off of St. Clair in 1812 and had a population of 13,350 in 1820. Greene was taken off from Madison in 1821, and its population is not given by Moses, in his genesis of the counties, until 1830, when it had 7,674. Morgan and Greene being in Greene as first organized. It will thus be seen that Morgan is of "the oldest" and best ancestry, coming down from St. Clair, Madison and Greene to its own birth in 1823. So we have a full right to think of Greene this year, and to congratulate her upon her attaining the good age of 100 years.

**A Good Mother.**  
Greene is not to be little thought of as a pioneer mother, for she gave to the state that staunch old patriot, Thomas Carlin, governor from 1839 to 1843; Charles Gregory, state treasurer, in 1836, and that splendid, scholarly man, Dr. John M. Peck, who first paid special attention to the history of Illinois, and gathered its great qualities to the world. Col. Edward D. Baker, slain at Bull's Bluff in 1861, and U. S. Senator from Oregon, reside in a Carrollton before going to congress from this district. Brev. Major General William P. Carlin was from Carrollton, as was Congressman Albert G. Burr and Henry T. Rainey. Greene furnished us David M. Woodson, Charles D. Hodges and Albert G. Burr as Circuit Judges. Another noted man from Greene was General James B. Fry, Provost Marshal

### THOMAS BELL SOLD OFF SURPLUS STOCK

Will Go to Nebraska Where He Has Leased Large Tract of Land—Sale Prices Were Satisfactory.

Murrayville, Jan. 18—Thomas Bell held a sale at his farm three miles south of this place today. Mr. Bell has leased a tract of 1,300 acres in Nebraska and expects to leave for that state soon. The sale was for the purpose of disposing of surplus stock.

Prices prevailing were most satisfactory, and indicated that farmers are looking to the future with confidence. The proceeds of the sale were \$3,000. Bidding was spirited on nearly all offerings and the result exceeded Mr. Bell's most sanguine expectations.

J. L. Henry and C. J. Wright were the auctioneers and Thomas Doyle served as clerk. The Ladies Aid of Zion church served lunch and realized a goodly sum and there was an unusually large crowd present. Some of the buyers and prices are given hereunder:

Cattle.  
William Still, cow, \$67.50.  
Charles Wiltver, cow, \$61. heifer, \$55.  
Chester Blinling, cow, \$45; one at \$61.50.

**MADE FIRST TAX PAYMENT.**  
The honor of being the first property owner to pay his taxes for 1921 belong to Howard Wanmaker. The books were delivered to Sheriff Weatherford Tuesday afternoon by County Clerk Riggs and Mr. Wanmaker then made good a record of several years' standing of making the first tax payment. His residence property is at 611 North Church street.

### BUSINESS BLOCK IN WHITE HALL IS SOLD

Grange Block Sold at Public Auction and Purchased By G. W. Boyd—Local Industrial Situation Good—Other White Hall News.

White Hall, Jan. 18.—The Grange Block was sold at public auction Saturday at the front door of the People's Bank, and was purchased by G. W. Boyd at \$12,850. Mr. Boyd stated today that associated with him in the purchase are Clyde Boehm and T. E. Giller and that they bought it for an investment. Just why this procedure was taken is not clear, except that some of the stockholders have been dissatisfied for some years, and this action was joined in by all the owners in order to weed out the dissatisfaction. The structure covers a quarter of a block at the corner of Main and Sherman streets. Its original cost of erection was \$15,000 and it has since been paying six and seven per cent on that investment. It is two stories high, there being five store rooms below and ten office rooms on the upper floor. A very small portion of this building has ever been idle since it was built. The new owners can spend several thousand dollars in repairs and improvements, and still have a good investment.

The local industrial situation is good. All the day plants are running full time, and there has been no authoritative talk as to a possible shut down. Two local captains of industry, C. B. Stahl and C. A. Ruckel were in Chicago Monday and Tuesday in conference as to the clay situation in general. Speculation is indulged that makes the local future look promising. Until within the past few days it was freely predicted that the building that housed the ice plant that was dismantled and shipped to Texas last fall, is to again be devoted to the manufacture of ice by the installation of an entirely new outfit by an East St. Louis concern. Another interesting item of speculation bobs up with the recent destruction by fire of the sewer pipe works at Monmouth. It is said that the Monmouth sewer pipe concern is to ship its machinery to White Hall had installed in the building formerly used by the Western Stoneware Co., the stoneware machinery having been dismantled and the manufacture of stoneware abandoned by the Western concern here several years ago. Some months ago arrangements had about been made for wrecking the building, but the work was not begun.

The recent unusual activities in the Christian church in all its departments is to have a culmination in the inauguration of a revival campaign to begin next Sunday and continue three weeks. The Sunday school has had remarkable growth in the past two weeks, and last Sunday the singing at the Sunday school was under the direction of Mrs. Gertrude Demereth, who had charge of a large chorus in connection with this service. Mrs. Demereth is an evangelistic singer and leader, and is well known to our people, coming from Winchester. At the evening preaching service there was a harmonious solo, "Invictus," by William Brell of St. Louis, who is announced to give another solo next Sunday night with the opening of the revival campaign. The revival will be in charge of Rev. C. E. French of Virginia, in return for whose services Pastor E. C. Lucas will go to Virginia at the close of the three-week campaign here and conduct a like campaign at Virginia.

Dr. A. C. Edwards, who has been the government inspector at this point for more than a year, is expecting an early transfer to Buffalo, which will involve his return to the meat inspection service from the serum service. This action will be regretted by the scores of friends of Dr. Edwards and his family.

The little son of Mr. and Mrs. Ivan Myers was buried in the White Hall cemetery Sunday following funeral services at the home of Ira Walker by Rev. Homer Evans, pastor of Tabernacle Baptist church. The family resides in the High street neighborhood, and the child died last Friday morning. The cause of death is not stated.

### IN MEMORIAM

In memory of Norman R. Shepard, who died January 19, 1920 at the age of 28 years:  
Sad and sudden was the call  
For our son, loved by all.  
We little thought on that day  
He'd be called so far away.

We could not realize  
When the message came that he  
was dead.  
But God, who loved him best  
Has taken him home to rest.

A shadow fell upon our lives  
When Death, the reaper, came  
And took our son and brother  
Away from earthly care and pain.

But some day our eyes shall see  
The face we loved so well;  
Our hands shall press in his  
And never say farewell.

His merry laugh we hear no more,  
The voice we loved is still.  
And all that is left for memory,  
Is his grave on yonder hill.

Dear is the grave  
Where our loved one is laid  
Sweet is the memory  
That shall never fade.

Roses may wither,  
Leaves fade and die  
If others forget him  
Never shall I.

MOTHER.

**BARONESS FILES  
SUIT FOR DIVORCE**  
Daughter of Late Chicago Million-  
aire Wants to Be Free—Hus-  
band Was Captain in Austrian  
Army.  
CHICAGO, Jan. 18.—Baroness  
Cecil Young DeKorwin, daugh-  
ter of the late Otto Young, pi-  
oneer millionaire merchant today  
filed suit for divorce in the su-  
perior court against her husband,  
Baron Joseph DeKorwin. The  
baroness charges that her hus-  
band deserted her in Paris eight  
years ago.

Baron DeKorwin, who was a  
captain in the Austrian army when  
the war broke out, last month  
applied for a court order re-  
questing the custody of his eight  
years old son who he claimed he  
had not seen since 1914.

The principals in the case  
gained attention in 1918 when  
federal authorities investigated  
the Young estate, said to have  
been worth \$25,000,000 with the  
intent of confiscating it under  
the alien property act. The bar-  
oness however, was exempted on  
the ground that she had separated  
from her husband at the be-  
ginning of the war.

**WINCHESTER**  
Leo Boylan returned to Beard-  
town Tuesday after enjoying a  
two weeks' vacation visit with his  
grandmother, Mrs. Martha Paul.  
Little Bess McLaughlin, daugh-  
ter of Mr. and Mrs. Russell  
McLaughlin, has been ill with  
pneumonia but is now somewhat  
improved.

George W. Hogan and wife re-  
turned last night from Spring-  
field, where Mr. Hogan on Mon-  
day attended the convention of  
masters in chancery. They drove  
thru in their car Sunday.

Mrs. Fred Markillie left Tues-  
day for a short visit in Jack-  
sonville, Fla., to enjoy the  
remainder of the winter.

Mrs. Gertrude Demaree has  
returned home from a visit in

**MOTHER-IN-LAW FAILS  
TO MAKE GOOD WIFE**  
Janesville, Wis., Jan. 18.—  
Frank Howe, traveling salesman,  
liked his second wife's mother so  
well he married her last May. The  
love boat struck a stormy sea and  
they were divorced by Judge  
Grimm here it was announced late  
yesterday afternoon. She accused  
him of tipping her out of chairs,  
throwing her downstairs and  
twisting her fingers. She called  
him names and treated the child-  
ren cruelly he charged.

**REPORT SHOWS FINE  
GROWTH PAST YEAR**  
Annual Meeting of Cloverleaf Life  
and Casualty Company Held  
Here Tuesday.  
The eight annual report of the  
Cloverleaf Life & Casualty Co., ap-  
pears elsewhere in this paper. The  
annual meeting of the stockhold-  
ers of the company was held yester-  
day, when the report was made.  
The directors of the company also  
held a session for the company of  
business. At the stockholders  
meeting the directors were re-  
elected as follows:  
President—F. H. Rowe.  
Vice-president and auditor—W.  
C. Bradish.  
Vice-president and manager life  
department—C. A. Goodale.  
Vice-president—G. H. Lane.  
Secretary—R. Y. Rowe.  
Treasurer—C. Y. Rowe.  
Among non-resident directors  
present were: H. A. Wade, Da-  
roit; J. H. Wockholz, Albion,  
Mich.; C. E. Bradish, Boston,  
Mass., and G. H. Lane, Alton.

The report made to the stock-  
holders yesterday by F. H. Rowe,  
president, gave proof as have pre-  
vious statements, that the com-  
pany's business is spreading out  
rapidly. Mr. Rowe in his report  
presented some summarized facts  
as follows:  
Increase in Business.  
"In submitting this Eight An-  
nual Report of the Cloverleaf Life  
& Casualty company, I can say  
that the progress of preceding  
years has been greatly surpassed.  
The Cloverleaf has shown progress  
at the close of every year, but the  
figures show that 1920 has been  
one of remarkable growth. Your  
attention is called to a few figures  
showing the results of the past  
year:  
The premium income  
for 1919 \$ 640,933.62  
The premium income  
1920 was 1,100,400.36  
The increase was over 58 per  
cent and the million mark was far  
exceeded.  
The increase in the Legal Re-  
serve Life business was more than  
100 per cent. The new business  
in life insurance is over three mil-  
lion dollars in this connection  
it may be noted that we are is-  
suing old line and income contracts  
as good as are issued by any life  
company in the country—protec-  
ted by adequate reserves as re-  
quired by the Illinois insurance de-  
partment, and the strict laws of Illi-  
nois.  
The mortality for the year was  
only 40 percent of the expected  
mortality. This shows conser-  
vative underwriting and excellent  
medical selection to secure a mor-  
tality saving of 60 percent.  
Mortgage loans have increased  
from \$355,020.50 in 1919 to  
\$455,460.50 in 1920. Real estate  
holdings have increased from \$125,  
000.00 in 1919 to \$33,000.00 in  
1920.  
The income from interest and  
rents has increased from \$9,-  
856.22 in 1919 to \$27,992.34 in  
1920 or 284 percent. The aver-  
age rate of interest on invested  
funds has considerably increased,  
from 5.14 percent in 1919 to 6.09  
percent in 1920.  
Our interest earnings is 2.59  
percent over the insurance depart-  
ment requirements. Only 3.1-2  
percent is necessary to maintain  
legal reserves.  
The increase in assets was 15  
percent, making the present assets  
\$613,293.06, or an increase of  
\$76,986.12.  
Losses paid policy holders was  
\$34,149.89, or an increase of over  
50 percent.  
The company is now doing busi-  
ness in twenty-four states and  
these claims have been settled  
without a traveling adjuster and  
at a minimum of legal expense.  
It is a great satisfaction to  
know that all of our departments  
are now managed by persons of  
many years experience in their  
respective lines of work.  
Our business does not require  
readjustment in comparison with  
many lines of business. The war  
did not materially increase vol-  
ume. Our rates were not increas-  
ed and the masses are now educa-  
ted to their need of human being  
insurance. In case of sickness, ac-  
cident or death while there may  
be readjustment in other lines,  
there is, therefore, no reason why  
our company should not continue  
its unequalled progress in 1921.

**AMERICAN LEGION  
POST HELD MEETING**  
Regular Business Session Held  
Last Night—Proposed Revi-  
sion in By-Laws Considered—  
Committee Appointments An-  
nounced.  
Jacksonville Post No. 279,  
American Legion, held a regular  
session last night at the Elks  
lodge rooms. There was a large  
attendance and the meeting  
proved of interest. One of  
the important matters given at-  
tention was the taking of a re-  
frendum vote on adjusted com-  
pensation. This was in accord-  
ance with the requirement of the  
national organization requiring  
that all legionnaires express an  
opinion on this important sub-  
ject.  
The proposed revision of by-  
laws was also considered. This  
has to do with the election and  
installation of a finance officer to  
relieve the adjuster of certain fi-  
nancial duties. Wilbur Hauck is  
the finance officer-elect and will  
serve as soon as the revision in  
by-laws has been adopted. Other  
officers elected last night were:  
Morrison Worthington, war risk  
officer; Albert Myrick, employ-  
ment officer. The post voted a  
fund of \$50 toward the Near  
East and the European Relief  
Council, the amount to be equal-  
ly divided between the two.  
The appointment of the fol-  
lowing committee to serve for the  
coming year was announced by  
Post Commander W. T. Harmon  
last night:  
Committee Appointments.  
The appointment of the following  
committees to serve for the ensu-  
ing year will be announced by Post  
Commander W. T. Harmon at this eve-  
ning's meeting:  
Entertainment committee—H. A.  
Williamson, chairman; Arthur C.  
Belle, August Phalen, William New-  
man, Harvey T. Sandberg.  
Membership committee—Glen Kin-  
ner, chairman; Worthington Adams,  
Roy T. Goodrich, Clarence B. Sie-  
fried, Earl E. Wolfe, Harold Dun-  
lap and Maurice Updegraff.  
Visiting and relief committee—Al-  
bert R. Myrick, chairman; Fred  
Goodrich, Omar Melton, Albert L.  
Yording, R. Walcott, Bland.  
Memorial committee—Fount An-  
drews, chairman; Homer Bradley,  
Muriel Cain, Thomas C. Patton, Lee  
Crawford.  
Hospital committee—Edward A.  
Litter, chairman; Eugene Keefe,  
Clarence Walsh, Homer Paschall,  
William A. Scott, Clarence E. Sie-  
fried, Frank L. Vannier.  
Permanent headquarters commit-  
tee—John Larson, chairman; Louis  
Cain, W. A. Kay, Dr. A. B. Applebee  
and Clyde Black.  
Ceremonial committee—Frank E.  
Wanamaker, chairman; W. S.  
Elmie, Jr., William Peters, Leonard  
Potter, Joseph Hosp, Richard Key-  
nolds and Clarence Sanderson.

**NEW RAILWAY EMPLOYEES  
WENT ON STRIKE**  
An incipient street railway  
strike tied up service for a short  
time Tuesday night. Four men  
who have become employees of the  
company during recent months  
took their cars into the barn and  
refused to make their customary  
trips because they are not on the  
same wage scale as the older em-  
ployees. Last summer when dif-  
ferences between employees and  
the company arose over wages it  
was agreed that a further in-  
crease in wages of 50c a day  
should be made when the com-  
pany was allowed to increase the  
charge for fares, and that the in-  
crease should be retroactive to  
August 1. This back pay was  
paid to the older employees Mon-  
day, and evidently created some  
dissatisfaction.  
Supt. O'Neal with the approval  
of Gen. Manager Gray, put into  
effect a graduated wage scale for  
new employees providing that they  
should not receive the maximum  
pay until they have been in the  
employ of the company for a cer-  
tain period. Last night when the  
older employees found out the sit-  
uation they promptly assisted in  
restoring service. The promises  
made to them have been faith-  
fully kept by the company and  
they evidently felt that a gradu-  
ated wage scale, taking into ac-  
count the period of service to  
just. The four men who refused to  
take out cars and one who sym-  
pathized with them were dis-  
charged, and other men em-  
ployed.

**DEATHS**  
Bell  
J. W. Bell, residing on Hardin  
avenue received a message of the  
death of his father, Francis M.  
Bell, which occurred Monday  
night, at the home of his daugh-  
ter, Mrs. George Woodworth, of  
Port Arthur, Texas. He was  
about 76 years of age. Death  
followed a serious operation. Mr.  
Bell formerly lived in Brown  
County, Ill., where he was en-  
gaged in farming until recent  
years when he has made his  
home in Quincy.  
He was a veteran of the Civil  
war, serving in Company B, in the  
14th regiment. No arrange-  
ments as yet have been made for  
the funeral, it is probable that  
the body will be placed in a re-  
ceiving vault in Port Arthur and  
kept until arrangements can be  
made. He is survived by the fol-  
lowing children: J. W. Bell of  
Jacksonville, A. E. Bell of Tulsa,  
Okla., Jacob Bell, of Des Moines,  
Iowa; Charles and Vernon Bell,  
of Quincy; Hardin Bell, of  
La Harpe and one son, Claudi Kil-  
ee in World War. Two daugh-  
ters, Mrs. George Woodworth of  
Port Arthur Texas and Mrs. G. A.  
Boggs, of LaHarpe also survive.

**HEARD INTERESTING  
STORY OF JAPAN**  
At Central Christian church  
Tuesday night a goodly audience  
assembled to hear Dr. E. E.  
Violette's lecture on "The Tem-  
ples and Shrines of Old Japan."  
One hundred and twenty hand-  
painted slides were shown and  
the language of the beautiful pic-  
tures was supplemented by the  
interesting descriptions that Dr.  
Violette gave, based upon his ob-  
servations made during extensive  
and frequent travels in Japan.  
Tonight the theme of the lec-  
ture will be "The Passion Play  
at Oberammergau." Dr. Violette  
owns the only complete set of  
pictures of the last passion play  
given in America, as they are  
his copyright.

## MISS BERGSCHNEIDER WEDS EDWARD HERMES

Miss Gertrude Bergschneider and Edward Hermes United in Marriage Tuesday Morning at Alexander Church.

A very impressive wedding ceremony took place at 9 o'clock Tuesday morning at the Church of the Visitation at Alexander, when Miss Gertrude Agnes Bergschneider became the bride of Mr. Edward Hermes of New Berlin, Rev. Father Lucius officiating. The young people were attended by Miss Magdalena Bergschneider, sister of the

bride, and Mr. Fred Hermes, cousin of the groom. The bride was handsomely gowned in brown broadcloth with hat to match, and wore a corsage bouquet of bride's roses and sweet peas. Her only ornament was a brooch, the gift of the groom. The bridesmaid wore a suit of brown broadcloth. Following the ceremony a wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. Anton Bergschneider, at which the guests were the immediate relatives of the young people. The cutting of the bride's cake was a most interesting event, William Hermes securing the darning needle, Mr. Frank Bergschneider the thimble, A. J. Bergschneider the ring and Peter Hermes the dime.

The bride, who as indicated, is a daughter of Mr. and Mrs. Anton Bergschneider of Alexander, has spent all her life in that community. After graduating from the public schools at Alexander she took a course at Normal. She is a young woman of charming personality and unusual gifts and is very popular in the social circles of her home community.

Mr. Hermes, like his bride, attended the public schools at Alexander, having made his home for a number of years with his uncle, J. T. Hermes. He has for some time been engaged in farming operations and has been very successful in his chosen occupation.

After a wedding trip to Chicago the bride and groom will be at home to their friends on a farm, six miles east of Jacksonville. Their wedded life begins under most happy auspices and they have the best wishes of a host of friends.

### EVANS GAVE BOND.

Roy Evans of Franklin precinct, for whom a warrant was issued, charging larceny, was arrested by Deputy Sheriff Oyer Wright. He gave bond for his subsequent appearance.

Certain foods, those rich in vitamins, are more useful than others.

Scott's Emulsion is replete with those elements that determine growth and strength.

## Social Events

### Mrs. Waite Hostess.

Mrs. W. C. Waite was hostess to the Household Science club yesterday afternoon, at her home on Westminster street. The subject concerning the home was, "Interior Decorations."

### BEG YOUR PARDON.

In the report of the annual meeting of the members of Trinity church Monday evening, the name of Mr. William Robinson was omitted. Mr. Robinson was elected as a vestry man for the ensuing year.

### Mission Study Circle Met.

The Mission study circle of the Congregational church, held a meeting last evening in the church parlors. Dr. Post was the leader and a most interesting and profitable evening was spent on the subject, "Old Religion and the New Day," which is the subject of a chapter in the timely book, "The Near East, the Cross Roads of the World," by William H. Hall.

### Trinity Guild Meets.

The Ladies of the Guild of Trinity church, held an all-day meeting Tuesday in the parish house. The ladies are sewing an article for the Easter bazaar, and a splendid amount of work was done. Lunch was served from the church kitchens.

### Golden Rule Club Holds Meeting.

The Golden Rule Club met Tuesday afternoon at the home of Mrs. D. L. McCarty, 935 N. Main street. About twelve members were present and the afternoon was pleasantly spent in sewing. The guests also enjoyed music furnished by the player piano and excellent refreshments were served by the hostess.

### Woolworth Employees Guests

Monday evening about twenty-five of the employees of Woolworth's store and their friends motored out to the home of Miss Hazel Bishop, east of town. A splendid three-course oyster supper was served by the hostess and the evening was pleasantly spent, playing games and enjoying some music. Mr. and Mrs. William Phillips and Mr. and Mrs. Elmer Moody were guests from Liberty.

### Tuesday Club Met.

The East Side Tuesday Club met yesterday afternoon at the home of Mrs. M. R. Range, on Pine street. A most enjoyable musical program was furnished by Miss Clara Ranson and Miss Fairbank had the paper for the afternoon on the subject of India. The churning of the Eastern land was brought out in the topic, "The Great Strands of India." After this most interesting program a social hour was enjoyed on which Mrs. George Guthrie gave a very interesting talk. The other topic was, "Bread Making," and there was a general discussion concerning this important part of the culinary art. Delicious refreshments were passed by the hostess.

### H. S. Paper Being Boosted.

A clever little play was given in

the High school assembly Tuesday afternoon, graphically illustrating to the students just why they should subscribe for the new high school paper. The snappy little stunt was written by Ruth Weber and the cast included the members of the staff of the new paper.

The subscription managers for the paper are doing some hustling this week soliciting subscriptions for the publication. Many subscriptions are already in and the new weekly promises to be a great success from every standpoint.

### Congregational Ladies

Saw for Bazaar.

The members of the Congregational Ladies' Guild held an all-day meeting in the church parlors yesterday. A fine lot of sewing was done for the coming Easter bazaar. The ladies brought sandwiches and hot coffee and tea were made in the church kitchens. The Congregational church is truly a community center now. One day last week there were the Ladies of the Guild, the Aid Society, two groups of Camp Fire Girls, Boy Scouts and some boys playing basket ball, all carrying on the various activities at the same time.

### Gave Supper Party

Mr. and Mrs. Steve Ritter entertained last evening at their home in Alexander, in honor of their sons, Stephen and William Ritter, who have recently returned from Rochester, Minn. There were six couples who enjoyed a delicious dinner at the Ritter home, and later in the evening a crowd gathered and spent the time in a delightful social way.

Mrs. Ray Decker and Mrs. James O'Dell and children are here from Chicago to attend the funeral of Mrs. Vierra.

Miss Rosa Botterbush of Bluffs was in the city Tuesday.

Mrs. W. D. McLaughlin of Bluffs was visiting friends in the city yesterday.

Mrs. Frank Ryan of Franklin was a Tuesday shopper in the city.

### Oyster Supper at

Bishop Home

A merry party from Jacksonville, together with Mr. and Mrs. William Phillips and Mr. and Mrs. Elmer Moody of Clark's Chapel neighborhood, motored to the home of Mr. and Mrs. William Bishop east of the city Monday evening. There an oyster supper was served, the menu including oysters and all the good things which go with them, also pumpkin pie and whipped cream, doughnuts and coffee. The evening was spent most happily with games and music and when the guests departed it was with a hearty vote of thanks to their host and hostess for a very pleasant time.

### Dancing Party at

Nergeneah Home

The home of Mr. and Mrs. Walter Nergeneah near Joy Prairie was the scene of a delightful dancing party recently, the guests including a large number of their friends. Violin and guitar music was furnished and there were also several selections on the Victrola. At a late hour delicious refreshments consisting of

## JACKSONVILLE LODGE INITIATES

Jacksonville Lodge No. 152 Knights of Pythias conferred the Rank of Page on Wiley Todd. A committee consisting of George A. Wiseman, J. B. Sibert and B. C. Lair was appointed to work in conjunction with a committee from Favorite Lodge to make arrangements for the three days meeting to be held Feb. 19, 20 and 21. These committees will also arrange for the annual sermon to the order in commemoration of the fifty-eighth anniversary of the order February 20.

sandwiches, pie and coffee were served.

### Domestic Science

Round Table to Meet

The Domestic Science Round Table of the Jacksonville Woman's club will meet at 2:30 o'clock Saturday afternoon, Jan. 22, at the residence of Mrs. W. L. Fay, 1243 West State street. A very interesting demonstration on fireless cooking will be given by Mrs. Ollie Parker. All members are urged to be present and to bring with them pencil and paper.

### Orleans Country Club

Met With Mrs. Clyde Cox.

The Orleans Country Club met Tuesday afternoon at the home of Mrs. Clyde Cox. A goodly number of members were present. The resignation of Mrs. Ernest Walters, president of the club, was much regretted by all. Mrs. Iven Cox, vice-president, will now serve as president, and Mrs. Harry Rice vice president. Two very interesting selections were played on the Victrola. Mrs. Samuel Davis gave an interesting paper on the Rockefeller foundation. Mrs. Moses Greenleaf read a paper on research work. The club adjourned to meet next with Mrs. George Holley, Feb. 1, 1921.

### Woman's Home

Missionary Society Met.

The Woman's Home Missionary society of the Grace M. E. church held an open meeting in the church parlors Tuesday evening at 7:30 o'clock. Miss Ruby Neville lead the devotional services. "Oh, Worship the King," was sung by the society. The leader talked along the line of Community Service as suggested in the Second Chapter of Isaiah. Reports of work were read. A barrel of clothing was sent to Rev. Peterson of North Dakota, which contained eighty pieces of clothing, twenty-seven of which were new. Ten dollars in cash accompanied the barrel, which was valued at \$24.86. A report was given on the barrel of fruit sent to the Cunningham Home at Urbana, Ill., Thanksgiving, valued at \$17.33. An interesting leaflet was entitled, "How to Spend Dad's Money," by Mrs. J. J. Reeve. Mrs. L. N. Hoppeck gave a review of a chapter in the study book, entitled "The Church and the Community." A number of interesting incidents were read by the following ladies: Mrs. J. R. Davis, Mrs. H. B. Hatfield, Mrs. O. Dawson, Mrs. W. C. Cole, Miss Sarah Groves, Miss Laura Fox, Mrs. Timmons.

The meeting was dismissed by Rev. T. H. Tull, pastor of the church. The ladies of Group No. 4 served a delicious refreshment. The meeting adjourned to meet the third Tuesday in February with Miss Alma Moore. Group No. 7 will act as assistant hostesses.

Mrs. Charles Hopper, Class Reporter.

### HURT ON ICY WALK.

Miss Laura Hammond of this city, has received word that her sister, Miss Eva Hammond, who is a teacher in the schools of Springfield, Mass., suffered a painful injury Jan. 5. She slipped and fell on the ice, pinning her foot beneath her, and tearing several ligaments loose from the ankle bone.

Miss Hammond is assistant supervisor of the art and hand work in the schools of Springfield. She was on her way from her rooming house to one of the schools when the accident happened. She has been detained from her work for two weeks on account of the injury and has only recently resumed her duties.

### MAKING CHANGES IN BUILDING

Work in Progress in Farrell State Bank—More Space for Bank Force and Customers.

A force of workmen is busy with certain betterments to be made in the interior of the Farrell State Bank. The changes, of which Joshua Vasconcellos, contractor, is superintendent, are in progress in the rear part of the building. An interior wall is being removed and such a rearrangement made that there will be considerable more space for the bookkeeping department and in addition a conference room for the use of the directors of the bank or customers.

A balcony will extend across across the building for an east and west width of 20 feet and will be approached by a wide stairway. The space thus afforded will be equipped with desks and chairs and will be for the use of customers. The changes are being made with the end in view of providing more space for the bank workers and for patrons.

### INTEREST IN REVIVAL SERVICES IS GROWING

The revival services at Trinityville Christian church, conducted by Rev. J. W. Camp, of Eureka, continue to grow in interest. Tuesday night Rev. Camp delivered a stirring and heart searching message, taking as his theme "Why Are We Saved." The meetings will continue each evening, beginning promptly at 7:15 o'clock, to which a cordial invitation is extended to all who can come.

### K. C. TRUSTEES BAR PUBLIC DANCES IN HALL

Trustees of the local council of Knights of Columbus at a recent meeting decided that the K. of C. hall shall not be rented for public dances. The reason for this action is found in the fact that there was unbecoming conduct at several public dances held in the hall. When the hall is leased for such an occasion the trustees have no control and for this reason the action already decided upon was taken.

The decision to cancellation of such dates was reached by unanimous vote. The trustees have been quite generally commended for the action taken. The conduct at some public dances has been such as to become a menace to public morals.

### VISITOR FROM TALLULA

S. H. Edwards of Tallula was a business visitor in Jacksonville yesterday and called on a number of friends. Miss Dorothy Edwards, daughter of the visitor who is quite well known here, is now taking her third year's work in medicine at Johns Hopkins university. The son, Raymond Edwards, a former Illinois College student, has recently become a department head in the Chicago plant of Montgomery Ward & Co.

### COLLECTOR NOW HAS COUNTY TAX BOOKS

Delivery Was Made Tuesday Afternoon—County Clerk Completes Work of Tax Extension Several Weeks Ahead of 1920 Record—Some Comparative Figures.

County Clerk G. L. Riggs yesterday delivered to W. H. Weatherford, sheriff and collector, the Morgan county tax books and taxes are now due and payable at the collector's office. The delivery was made much more promptly than last year, as it was not possible in 1920 to deliver the books to the collector until Feb. 12. So the work of collection this year has begun nearly four weeks earlier than was true last year. The total valuation of property this year, on which the 1920 taxes are assessed, is \$29,783,404. It is \$1,220,658 more than last year, when the total property valuation was 28,562,746.

The total revenue from taxes in 1920 was \$900,425.48, while the total revenue this year will be \$1,043,057.21, an increase of \$142,631.73 over last year. However, these figures are somewhat deceiving, because the expense of collection must be taken into account. The total tax rate this year is \$6.40 per \$100 and the tax rate last year was \$5.56.

Some weeks ago those who pay attention to tax matters were expecting a higher rate this year than was subsequently used for extension work. But County Clerk Riggs used the scaling down process possible under the law and the total rate was therefore reduced to \$6.40. The work of tax extension is always arduous and the county clerk and his assistants are therefore glad when the final day of the big task arrives. This year the work has moved along smoothly and rapidly.

Some comparative figures relating to equalized valuations and also the amount of taxes levied for different purposes are given below:

Personal property—equalized valuation 1919, \$6,399,115; equalized valuation 1920, \$6,185,750.  
Lands—equalized valuation 1919, \$14,266,490; equalized valuation 1920, \$15,527,220.  
Taxes—equalized valuation 1919, \$5,539,845; equalization valuation 1920, \$5,575,280.  
Railroad property—Assessed valuation 1919, \$2,244,681; assessed valuation 1920, \$2,283,464.  
Corporations assessed by the state—equalized valuation 1919, \$111,615; equalization valuation, 1920, \$111,700.

### Tax Figures 1919.

Total state tax—\$114,250.37.  
Total county tax—\$142,847.31.

### Will Raise Funds FOR CHINESE RELIEF

President Wilson Names Committee to Take Charge of Work—Prominent Citizens of Illinois are Chosen.

In response to President Wilson's proclamation of appeal, calling upon America to aid the 45,000,000 famine-stricken people among the five northern provinces of China, widely-known public-spirited citizens throughout the country have accepted membership on the American Committee for China Famine fund.

Recognizing the calamity that the tens of millions are facing, President Wilson named the American Committee for China Famine fund with Thomas W. Lamont, of New York, as chairman; Hon. Norman H. Davis, acting secretary of State, as honorary treasurer; Vernon Munroe, of New York, as treasurer, and Rae D. Henkle, managing editor of the Christian Herald, as general secretary. The committee, with a membership of 130, is nationwide in its personnel, and includes bankers, newspaper and magazine publishers, representatives of the stage and the clergy, educators, women prominent in social and public affairs, men active in business and industry, and city and state officials.

Acting upon a recent letter from Mr. Lamont, plans are progressing rapidly toward complete organization and it is announced, local units will be named soon and local banks chosen as depositories for contributions made within the state.

### Millions in Desperate Straits.

Charles R. Crane, U. S. minister to China, in a recent official cablegram to the Department of State, said that 15,000,000 people are in desperate straits, that the death rate is rising rapidly and that typhus and cholera epidemics are gathering a heavy toll. According to the statements of American missionaries and business men, who have investigated conditions in the famine-stricken areas, 10,000 have been dying from starvation and now death from exposure to the cold of the Asiatic plains is increasing the rate.

The American minister is authority for the statement that \$1 will keep a Chinese alive for a month and these millions must be fed until the early summer harvest in June.

Pending the completion of the organization in this state and the resignation of local banks as depositories, contributions are being received by Vernon Munroe, treasurer, American Committee for China Famine Fund, Bible House, New York. Money received by the committee is immediately transmitted by cable for distribution to the starving millions by the International Famine Relief Committee in Peking.

### Illinois Representatives

The American Committee for China Famine Fund is represented in Illinois: John Jay Abbott, Julius Rosenwald, president of Sears, Roebuck and Company, John J. Mitchell, president of the Illinois Trust and Savings Bank, Mrs. William J. Calhoun, Mrs. Joseph Cudahy, Edward Nash Hurley, former chairman of the U. S. Shipping Board, now chairman of the Board of directors of the Hurley Machine Company; Joseph H. DeFrees, president of the U. S. Chamber of Commerce; Dr. Frank W. Gansauls, president of the Armour Institute; Rev. Dr. Joseph Timothy Stone, pastor of the Fourth Presbyterian church; Shailer Mathews, dean of the University of Chicago, and W. W. Blair, president of the Chicago Chamber of Commerce.

### ILLINOIS WILL PLAY LINCOLN COLLEGE

Game Scheduled for Friday Night—Lincoln Team Reported Strong.

Cochman's Illinois five will meet the fast Lincoln college five in David Prince Gymnasium Friday night.

The visiting team is reported as unusually strong this year. A few nights ago it held the Wesleyan five to a score of 24 to 21. Illinois tucked the McKendree game safely away last Saturday night and the victory gave the men more confidence and they will enter the game Friday night determined to make it victory number three.

The Illinois tossers have been working in excellent form the past two nights and are improving rapidly in team work as well as in basket shooting. Harmon is well fortified with forwards and is not yet decided on his lineup but it is probable he will give all of the men a chance.

Farrell has joined the squad and is showing good form. He works fast on the floor and undoubtedly will be of great value during the season. Melton is improving daily and is in much better shape than last year. Cully and Jones are working well at the guard positions. Ransdell has been compelled to quit the game for awhile on account of poor health.

Next week Illinois makes a trip south when McKendree and Shurtleff will be met in return games. Both of these teams will try hard to reverse the result of the games while Illinois will try just as hard to repeat.

### CENTENARY WON FROM BOY SCOUTS

The Centenary basketball team won a game from Troop Five Boy Scouts in Centenary gymnasium over the Kresge store Tuesday evening by a score of 33 to 7. The game was fast and exciting. When the game started the scouts began with a rush and looked like winners but the Centenary boys got together and soon took the lead and ran away with the game. The lineup: Centenary—Wetzel center, Dods-worth, Bergstrom forwards, Johnson guard and center, Hoagland guard, Cook guard. Scouts—Pitch, Gard, Smith, Godfrey, Miskel.

Miss Edith Straight, R. N., left this morning for Asheville, N. C., where she expects to spend the rest of the winter in the famous southern resort.

# MILLER HAS NOW LAID HIS CRUTCHES ASIDE

Moline Man Declares Tanlac Has Overcome His Troubles After Suffering for Six Years

"After suffering about all the tortures that come from a bad case of stomach trouble and rheumatism for six years, I'm now feeling just as fine as I ever did in my life, and to Tanlac alone I owe my good health," was the truly remarkable statement made by H. W. Miller, of 402 8th street, Moline, Ill.

"I have no more use for my old crutches since Tanlac has set me right, and I eat three big hearty meals every day that rolls around. My stomach used to be so out of order that for weeks at a time I could only eat a little liquid food, and even this made me miserable. I had a terrible burning in my stomach, and gas pressed around my heart until it palpitated so bad I could hardly breathe. My liver was so disordered that I had awful

bilious spells, and my color was as yellow as a pumpkin. Rheumatism set in about three years ago and my legs became so sore and swollen it was all I could do to hobble around on crutches. My arms hurt me almost as bad as my legs, and many times I was in such pain I could hardly keep from crying out.

"I certainly am glad one of my neighbors persuaded me to try Tanlac, for it has rid me of all my ailments, stomach trouble, biliousness, rheumatism and I have gained considerable weight. Tanlac has fixed me up so that I look like an entirely different man, and although I'm in my fiftieth year, I never felt better in all my life than I do now."

Tanlac is sold in Jacksonville by Coover Drug Co. and J. F. Shreve and Wyle Drug Co., Franklin and Waverly and leading drug store in all cities.—Adv.

## Herbs Used in Medicines

A Manchester, England, paper urges the renewed cultivation of old fashioned medicinal herbs in English gardens. In the United States they have also gone out of fashion as a feature of the small garden, although they are imported in large quantities from Turkey, India and China, where they are grown purely for commercial purposes, as their medicinal value is recognized by many leading physicians. Tons of medicinal herbs are used annually in the preparation of Lydia E. Pinkham's Vegetable Compound, a most successful medicine for woman's ills. It contains no narcotics or harmful drugs, and women afflicted with such ailments should try it.—Adv.

## Nothing to Wear

She is just as femininely fond of looking pretty, and "dolling up" as any other little girl. But she was unlucky enough to be born in Eastern Europe, where the possession of one warm whole garment is looked upon as luxury, so in all her short life she has never decently clothed. But even clothes are not the most vital thing in her life. Food comes first. And with 3,500,000 other little ones just like herself in Eastern and Central Europe, she has found that even a very little girl really must have one meal of nourishing food a day if she is going to keep on living.

She can not keep on living unless America sends that one nourishing meal a day. To feed them all will take \$23,000,000. It must be contributed at once by the American people or it will be too late.

The European Relief Council, through which America's eight leading welfare organizations is functioning, is speeding every effort to raise this amount for food and medical service.

Contributions should be made through local committees or sent to Franklin K. Lane, treasurer, European Relief Council, 42 Broadway, New York City.

## THE BIG FOUR FISHING CLUB

Literberry, Ill., Jan. 14, 1921.

A few people are finding fault on account of failure to report the closing of the Big Four fishing club's season.

We do not feel that we have neglected our duty as reported to the "Big Four." The fall months were so peculiar and the weather clerk gave us such discouraging weather that we kept putting off the report until cold weather came upon and closed the season before we were ready. We thought our report for the commencement of the spring opening would be ample, but our secretary and president have notified us to show our hand. See?

We must say that the last season has been rather disappointing in several respects. The conditions, during last winter and spring, indicated one of the very best seasons we had seen for years, but we failed to find the advantage we were expecting.

It is true we caught a great many fish, but few large ones. Deak Daniels has worn the belt for two seasons, but we believe his fall is in sight. The facts are these.

Dr. Obermeyer brought Deak a nice baby girl during the holidays and he is putting all his spare time in playing with the baby instead of posting his mind on fishing. Deak has worn the belt so long that he thinks he is it, but we believe his finish is in sight.

The other members of the club are keeping up their studies and preparations for the coming season. Hitch greases his pole once a week, he also practices casting, and if nothing happens to him he will be almost perfect by spring.

Orville is planning a bed of high class angle worms. These worms are to be, if they breed true a carmine red with a double wiggle. He will use them especially for carp. Joe Litter is so industrious that he is always doing something, either in the line of fishing or talking fish. So you see while Deak is playing with his new baby, the other members are getting ready to throw him down.

Applications for membership are coming in rapidly. Jim Fillion, Billy Murry and Capper Brown have given up all hopes of ever being admitted. There is a real nice, good looking fellow, a good talker who seemed to be game, came very near getting into the club last fall; but the last time he came thru Litterberry he told some fishing and hunting experiences he had in the Ozarks. This put the members to thinking and if we should meet Charlie we would tell him to call off his application for Charlie is a traveling man and like all other traveling men, a good fellow but he must remember that there are a lot of men only too ready to pick flavor in the very best of fish tales.

Non-resident members are hereby notified to send in their dues if they expect to continue members in good standing.

The financial standing of the club is above par. Nevertheless there is just a little friction technicalities, but of course they

## MOTHERS, DO THIS—

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt, sure relief. It does not blister.

As first aid and a certain remedy, Musterole is excellent. Thousands of mothers know it. You should keep a jar in the house, ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chills, frosted feet and colds of the chest (it often prevents pneumonia).

## HIS CIGAR DOESN'T TASTE RIGHT

And Yet It is the Same He Was Smoking With So Much Relish After Dinner, Last Night, Out of the Very Same Box, Too.

Every smoker has experienced this peculiar condition, the result usually of imperfect digestion of food. And the blame is rarely put where it belongs.

Such men are usually high fivers, hard workers mentally, living under high pressure and high draught, and it doesn't take a great deal to disorder the stomach or render the liver torpid.

They should make it a practice to use after meals Stuart's Dyspepsia Tablets, and thus avoid the sudden attacks of indigestion.

Brain workers will find Stuart's Dyspepsia Tablets a good investment. All druggists carry them in 60 cent boxes.—Adv.

## WHY SHIVER

most of the time from now to Easter, when you can go to California and bask in glorious sunshine?

One of the attractions of spending the winter in California is getting here. The trip is a lesson in geography—a liberal education. The scenic treasures enroute and there equal anything to be found anywhere else.

Why deny yourself the pleasure of seeing Denver, Colorado Springs, Pike's Peak, the Royal Gorge, Steamboat, the Majestic Rockies, Salt Lake City, Great Salt Lake and the 90-mile-long serpentine Canyon of the Feather River, through the beautiful Sierras, when you can buy a ticket via the Burlington that will take you right through these wonders in daylight?

Come in and let me tell you more about it and make your reservation so that you will be assured of accommodations when you are ready to go.

## Bank Spirit

The foundation upon which "Bank Spirit" must be built, if it is to be a sound and lasting thing, is the foundation of the fair deal. It is an old principle, but one which must be newly applied and constantly woven into the fabric of an organization.

This Bank so genuinely believes in the truth of this principle, and has in the past made so great an effort to make it a part of its every day life, that it believes even the caller upon casual matters cannot but notice in every department, that spirit of readiness, helpfulness and fairness, which makes true "Bank Spirit."

Matters of great importance may take longer study, require more consideration than the routine business detail, but it is the application of "Bank Spirit" to routine affairs which largely indicates what may be expected in problems of considerable moment.

**Where Standard Oil Efficiency Is Needed Most**

IN the ten Middle Western States served by the Standard Oil Company (Indiana) there is one automobile for each 9 persons. It is estimated that 65% of these vehicles are owned by farmers. That is the utmost of efficiency in refining, manufacturing, and distributing gasoline and other petroleum products is needed most in this great territory.

To indicate the tremendous increase in the number of cars and trucks, the following statement of 1919 and 1920 registrations by states is given:

STATES	1919	1920
So. Dakota	104,625	122,040
Iowa	363,000	442,200
Minnesota	259,743	323,572
Missouri	229,577	295,817
Kansas	228,601	265,385
No. Dakota	82,885	90,840
Michigan	296,378	412,275
Wisconsin	236,974	303,246
Indiana	277,255	332,207
Illinois	478,438	569,127
	2,557,476	3,156,709

To enable these machines to operate in all weather, under all conditions, and wherever they may be located, an adequate supply of gasoline is needed. To supply this need is the constant endeavor of the Standard Oil Company (Indiana). The refineries operated by this Company are working night and day to increase the yield of gasoline taken from crude oil, without in any way sacrificing the quality of the gasoline.

The Standard Oil Company (Indiana) operates a distribution system maintained at as near to 100% efficiency as is humanly possible. To do this calls for a minute and unwearied study of local conditions, and for constant anticipation of future needs.

All activities of the Standard Oil Company (Indiana) are co-ordinated to the highest degree of efficiency to insure maximum economy.

Thus in the Middle West, where efficiency is needed most, the Standard Oil Company (Indiana) is performing this essential economic service to the benefit of all the people.

**THIS PROFESSOR TELLS GREAT TRUTH**  
Says Spellers of Present Day Not as Good as Those of Twenty-Five Years Ago—Crowded Curriculum and Movies Responsible.

Normal, Ill.—(By the A. P.)—School children of today are poorer spellers than those of 25 years ago in the opinion of Prof. Elmer W. Cavins, head of the department of orthography at Illinois State Normal University. He bases his assertion upon 25 years' experience as a teacher of spelling.

"The reason, as I see it, is that the crowded curriculum gives pupils less time for drill, and the 'movies' have superseded the old time spelling bees," Professor Cavins said.

Asked why girls are better spellers than boys as disclosed in the recent state spelling bee and if women as a rule are better spellers than men, Prof. Cavins said:

"Perhaps they are because their home training and interests incline them more to neatness, order and form. However, in my score of years of teaching in the Illinois State Normal University I have met hundreds of young women whose writing was not neat and whose spelling was miserably poor."

Some of the hardest words to spell, Prof. Cavins said, are: kjel-

**TREAT ALL COLDS WITH TURPO**

Don't trifle with a cold. Every winter millions of cases of serious illness result from neglected colds. Gripe influenza pneumonia catarrh and other troubles have their origin in colds.

At the first sign of a cold—a sneeze, a tickle in the throat—apply Turpo. Turpo is first-aid to every cold trouble. It is a combination of the old reliable remedies distilled Turpentine Camphor and Menthol in a clear mineral base. It carries the medication right through the skin to the root of the trouble. Turpo gives immediate relief removing the cause of the trouble without blistering the skin or staining the clothing.

Every doctor uses the ingredients of Turpo in his practice. Your doctor will confirm that it is a safe, dependable home remedy. Every druggist knows the value of Turpo and sells it on a guarantee of money back if not satisfactory.

Mothers with small children find Turpo especially valuable. Many will not be without a jar of Turpo in the house.

Sold in white opal jars with the orange and black label, at 30c and 60c.

**ROAD BUILDING COST DECREASE**  
Springfield, Ill.—(By The A. P.)—The present year will see the cost of road building decreased to the prices that prevailed in the spring of 1919, with possibility of even a greater reduction next year, in the opinion of Clifford Older, chief engineer of the state highway department.

In a resume of accomplishment of the past year, prepared by Mr. Older and S. E. Bradt, superintendent of highways, prediction is made that within the next few months the forces now working toward a readjustment in all lines will bring about a corresponding readjustment of interest rates, which would mean the ability of the state to market its road bonds on a more satisfactory basis than at present.

"If the hopes of the department are realized," the prospectus for 1921 goes on, "then a large part of the 4,000 miles of roadway in the state still unimproved will be built during the administration of Governor Small."

It is well known that he favors as diligent a prosecution of this work as is consistent with sound business principles. He is ready whenever the prices of material have reached a satisfactory basis, to authorize the letting of contracts as rapidly as plans and specifications can be prepared for as many miles as can be built during the 1921 season.

### MAKE PLEA FOR DYE PROTECTION

American Chemical Association Says German Dye Trust Stronger Than Ever—Must Protect American Dye Interests.

New York. — By The A. P.—

A plea for Congressional action to restrict the importation of German dyes into the United States has been issued here by the American Chemical Society thru Dr. Charles H. Herty, former president of the organization.

Dr. Herty was appointed by President Wilson to negotiate for the American share of the German dyes impounded in France after the war.

The eminent chemist calls attention to the action of Great Britain in passing an act similar to the Longworth bill, which was passed by the United States House of Representatives and held up in the Senate Committee on Finance.

Pointing out the similarity of the dye situation confronting Great Britain and the United States, Dr. Herty recalls that during the war poison gases were made in German dye factories and adds "when our textiles, leather, paper and other industries were smarting under the experience of servility to a foreign nation for supplies of needed dyes and thought of the nation was clear as to the necessity of a complete self-sustained American dye industry."

Altho the American makers of dyes have \$100,000,000 invested in factories and apparatus, prominent American chemists maintain that these manufacturers cannot withstand a German invasion without suitable legislation. They are, however, equipped to manufacture 85 per cent of the dyes required by American industries and would be able, according to the bulletin of the American Chemical Society, to make the other 15 per cent if they had tie to develop the special processes under favorable auspices.

The German dye trust, Dr. Herty declared, is shown by published reports to be stronger than ever, both in capital and in organization. Moreover, he continues, it has just made arrangements thru the organization of subsidiary company to enter the field for control of the world's supply of fixed nitrogen, the chief element in fertilizers, munitions and many dyes.

Under the head of depreciation owners are allowed a "reasonable amount for exhaustion, wear and tear of property used in trade or business, including a reasonable allowance for obsolescence." This deduction must be made as a separate item on the return, and must be explained by showing separately each class of property, its cost or fair market value on March 1, 1913, if acquired prior thereto, value at the date of acquisition if acquired by gift, devise, or descent, estimated life, depreciation charged for the year 1920, and total depreciation charged for all taxable years.

No Specific Rate.

As the rate at which depreciation may be claimed is dependent upon local conditions, the use to which the property is put, and its probable lifetime under normal conditions, no specific rate is established by the law and regulations. When each taxpayer must compute the probable lifetime of his property without regard to the following figures, it has been estimated that the probable lifetime of a frame building is 25 years, a brick building 35 years, a stone, steel, or concrete building 50 to 100 years.

To compute the proper amount of depreciation the taxpayer should determine the probable lifetime of the property, then divide the fair market value as of March 1, 1913, or the cost if acquired subsequent thereto, by the number of years so determined. This will give the annual depreciation allowable. For example, a frame building, the probable lifetime of which is 25 years, cost \$4,000. Divide 4,000 by 25 and claim \$120 each year as depreciation.

Deductions for depreciation are limited strictly to business property, which includes not only buildings but machinery, automobiles, farm tractors, mine and mill equipment, office furniture, instruments used by professional men, and books.

Transaction of R. R. Business by Wireless

Louisville, Ky.—By The A. P.—

Transaction of railroad business by wireless soon will be a reality in the south, according to announcement here by Telegraph Superintendent R. R. Hobbs of the Louisville and Nashville railroad. The company has purchased wireless outfits and will install them at Louisville, New Orleans, Pensacola and Mobile for the general message service of the company.

Train dispatching by wireless, however, Mr. Hobbs said, is not practicable at this time. There sometimes are so many as 25 trains with the same number running on the lines of the company at the same time and as wireless message can be heard all over the country confusion would be created. The wireless will be supplementary to the regular wires.

### TO THE POLICYHOLDERS AND SHAREHOLDERS OF THE CLOVERLEAF LIFE & CASUALTY COMPANY

Dear Sirs:

In submitting this Eighth Annual Report of the Cloverleaf Life & Casualty Company, I can say that the progress of preceding years has been greatly surpassed. The Cloverleaf has shown progress at the close of every year, but the figures show that 1920 has been one of remarkable growth. Your attention is called to a few figures, showing the results of the past year:

The Premium Income for 1919 was \$ 640,933.62.  
The Premium Income for 1920 was 1,100,400.36.  
The increase was over 58% and the million mark was far exceeded.

The increase in the Legal Reserve Life business was

more than 100%. The new business in Life Insurance is over three million dollars. In this connection it may be noted that we are issuing old line and income contracts as good as are issued by any Life Company in the country—protected by adequate reserves as required by the Illinois Insurance Department, and the strict laws of Illinois.

The mortality for the year was only 40% of the expected mortality. This shows conservative underwriting and excellent medical selection to secure a mortality saving of 60%.

### Investments

Mortgage loans have increased from \$355,020.50 in 1919 to \$455,460.50 in 1920. Real estate holdings have increased from \$12,000.00 in 1919 to \$33,000.00 in 1920.

The income from Interest and Rents has increased

from \$9,856.22 in 1919 to \$27,992.34 in 1920, or 28%. The average rate of interest on invested funds has considerably increased, from 5.14% in 1919 to 6.09% in 1920.

Our interest earning is 2.59% over the Insurance Department requirements. Only 3½% is necessary to maintain legal reserves.

The increase in assets was 15%, making the present assets \$613,293.06, or an increase of \$76,986.12. Losses paid policyholders was \$344,145.89, or an increase of over 50%.

The Company is now doing business in twenty-four States and these claims have been settled without a traveling adjuster and at a minimum of legal expense.

It is a great satisfaction to know that all of our Departments are now managed by persons of many years experience in their respective lines of work.

Our business does not require readjustment in comparison with many lines of business. The war did not materially increase volume. Our rates were not increased; the masses are now educated to their need of Human Being Insurance, in case of sickness, accident or death. While there may be readjustment in other lines, there is therefore, no reason why our Company should not continue its unequalled progress in 1921.

I wish to express my deep feeling of appreciation to the men in the field, the heads of the Industrial, Commercial, Farm and Life Departments, to the Officers and the Home Office force whose untiring efforts have made our remarkable and uninterrupted growth possible.

F. H. ROWE, President.
